The AFL (Applied Foreign Languages) field of study is a multi-disciplinary, career-focused curriculum that enables students to master two foreign languages studied in equal measure (English and Spanish). It differs from the LLCE (Foreign languages, literatures and cultures) field of study, which is based on the study of a single language from a more theoretical and literary perspective.

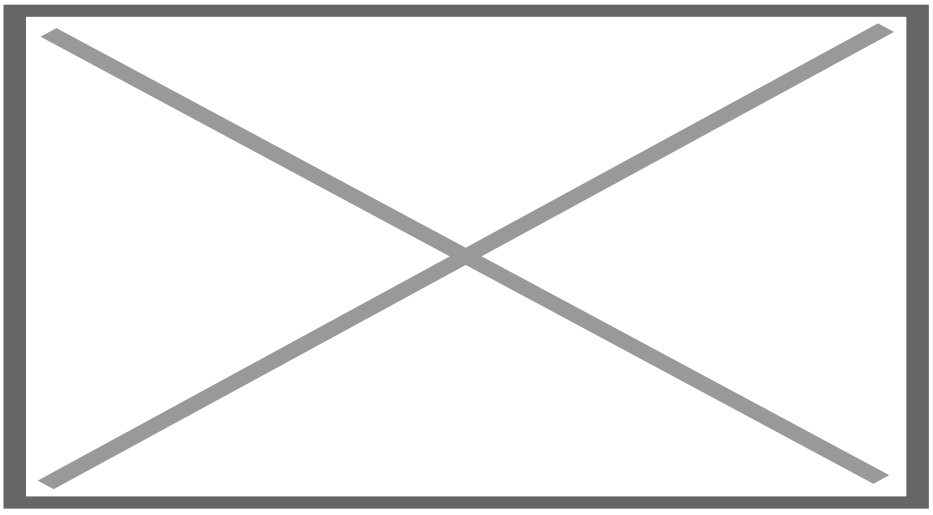

You have the same number of courses in each of the two languages studied (English and Spanish). These courses are organised into blocks of competencies (BCC): **Translational and linguistic competencies (Cultural) competencies of the Major Cross-disciplinary, career-focused and openness competencies**
